

Dead Flesh Girl

Mister Monster

Nothing brings out the death in me, like December snow
No one can make me scream, like you could always make me scream
, my love.
You loved to see me bleed, you'd always slip on my blood.
Just kill a little kid or two, you'll see what I've been going
through...

Each sip of wine that I take, is for love that's lost.
Each bottle that I break, is for you the girl I loved the most.
When you said you'd never leave, your fiendish smile grinned.
And now that you're gone again, it made me look inside and see
that...

I'm the monster everyone made of me
I'm the one you held so cold
How I'd love to see you're alone but you're in no ones arms but
yours.

Now when I feel inside of you, I feel nothing but death.
Dead flesh inside of you, with ants and worms and maggots on yo
ur breasts.
Take a look inside of me, there ain't nothing but black.
A black heart and colder lungs
Prescilla, maybe now you'll see that...

I'm the monster everyone made of me
You created something so cold
Sometimes, Amy thinks she's wrong but it's no ones fault but yo
urs.

This monster's all your fault.
