

There you go, there you stay
Keeping low, never wanna play
Wandering far, disappearing
Feet stuck in place, not moving

You've been up and down, down
You've been low, low, low
Troubled sea so deep, troubled home no sleep
You've been flying so high
Avoiding the road
Pretending to not feel alone (2x)

Where to fly? Who knows
Winds rapidly blow
From branch to branch you go
When you see the sun dear friend let it glow

Don't shun it all,
Don't let it fall
From your hands how you used to crawl
You're walking tall, no need to hide
Behind the clouds in the sky

You've been up and down, down
You've been low, low, low
Troubled sea so deep, troubled home no sleep
You've been flying so high
Avoiding the road
Pretending to not feel alone (2x)

Vagabond is you,
Ran the mile no shoes
If the sun goes down too soon
Embrace the starry-eyed moon

Vagabond is you,
Swam the sea at the darkest blue
You made it, made it through
You made it, made it through, oh

You've been up and down, down
You've been low, low, low
Troubled sea so deep, troubled home no sleep
You've been flying so high
Avoiding the road
Pretending to not feel alone (2x)
