

# Vagabond

MisterWives

There you go, there you stay  
Keeping low, never wanna play  
Wandering far, disappearing  
Feet stuck in place, not moving

You've been up and down, down  
You've been low, low, low  
Troubled sea so deep, troubled home no sleep  
You've been flying so high  
Avoiding the road  
Pretending to not feel alone (2x)

Where to fly? Who knows  
Winds rapidly blow  
From branch to branch you go  
When you see the sun dear friend let it glow

Don't shun it all,  
Don't let it fall  
From your hands how you used to crawl  
You're walking tall, no need to hide  
Behind the clouds in the sky

You've been up and down, down  
You've been low, low, low  
Troubled sea so deep, troubled home no sleep  
You've been flying so high  
Avoiding the road  
Pretending to not feel alone (2x)

Vagabond is you,  
Ran the mile no shoes  
If the sun goes down too soon  
Embrace the starry-eyed moon

Vagabond is you,  
Swam the sea at the darkest blue  
You made it, made it through  
You made it, made it through, oh

You've been up and down, down  
You've been low, low, low  
Troubled sea so deep, troubled home no sleep  
You've been flying so high  
Avoiding the road  
Pretending to not feel alone (2x)
