Passing through the storm -Led by Demons - walk between the World of men and gods -Cast no shadows - draw no light. I rape the priestess on pagans night.

I taste the serpents poison On the lips of the one I love. She brings this gift of witchcraft. I wear the cat-skin-gloves.

Apples of youth when I wrought Mischief, hung in a tree to rot In the sun. Reborn in the middle of the Final orgy the gift of slavery To the chosen one.

Suicide Suicide don't you know Me-call to the Master - he will Come. - He will bring out Ressurection-cloaked in darkness -He has won.

Smoke of my sacrifice. Journey to the Isle of the Blessed. Grant my soul your glory. At night time - I'm your guest. Only I know why

Each dawn I die.
