

# No Memory

Mistress

An animal distraction  
Murdered children have more choice  
While you're skull fucking the eunuch  
A world from hated sex divorced

And have no memory

Suck the cock of forced attrition  
Swallow Satan's burning chyme

And have no memory

So with burning, piss teared eye's  
Open wide, inhale the flames  
Just drink away the regrets

Have no memory  
A-fucking-gain

Withered lunatic  
In Jack Daniels' halo  
Confused and violent  
Abuse once and throw away

And so now, you're coming fucking back again  
Just drain all you need and walk away  
I won't remember anyway
