

Get Out

Mitchel Musso

You spin around like a broken record
It plays your name everytime the needle skips
It's been that way since the last december
I can't live like this anymore
You're stuck inside every conversation
Yes I know that you're really good and gone
But I'm a slave to this obsession
How can I move on
You're in my thoughts, in my head, in my heart, in my dreams
And I wish you would stop haunting me

Get out get out
I can't take it no more
Breathe in breathe out
Cause I die a little every time I think about you
Get out get out
Cause I'm going crazy
I scream and shout
I try everything but you're still here and I can't stop missing you

Ooh yeah
The way I feel everytime you're with me
How you say it all without a word
I keep hearing time heals everything so tell me why does it still hurt
Like you only just told me goodbye and I can't get you out of my mind

Get out get out
I can't take it no more
Breathe in breathe out
Cause I die a little every time I think about you
Get out get out
Cause I'm going crazy
I scream and shout
I try everything but you're still here and I can't stop missing you

I hate to love you
I hate to let you go
You're good at leaving
But I'm no good alone

Get out get out
I can't take it no more
Breathe in breathe out
Cause I die a little every time I think about you
Get out get out
Cause I'm going crazy
I scream and shout
I try everything but you're still here and I can't stop missing you

Get out get out
Breathe in breathe out
You spin around like a broken record
It plays your name everytime the needle skips skips skips skips skips skips
skips skips skips
