

Shout It

Mitchel Musso

She is so innocent and when she speaks, I listen
She is my angel sent from up above
She is my fire and my only one desire
She's in the front row, yeah, she comes to every show

And I want you know

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just scream it

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just shout it out to you
(So I'll just shout it out to you)

She is my fire and my only one desire
She's in the front row, yeah, she comes to every show
And I want you to know

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just scream it

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just shout it out to you
(So I'll just shout it out to you)
(So I'll just shout it out to you)

She's blonde, she's sweet, her eyes are green
Take my hand, follow my lead
I know just where she'll be, row 6G, section 3

She's cool, she's hot, she's all I need
Means a lot, everything to me
When she walks, I'm begging, please
Hold my hand so they can see she's with me

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just scream it

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just shout it out to you

Shout, shout, shout it out from the roof top, let it out
Shout, shout, shout it 'til the world can hear it now
I don't know what to say or do
So I'll just shout it out to you
