

# Afraid Of The Dark

MKTO

(It's going down, it's going down)  
We go together like fire and dynamite when it blows  
Look out, look out below  
When we touch the world explodes  
(Every time you're near me I get hella overheated  
Tryna live without you but your body heat - I need it)  
Oo-wee darling believe that I'll never let you go  
Even if you're afraid of the dark  
Let's be dangerous surrender your heart

All anybody needs is one light  
I'll be anything that you like  
Call me if you need it tonight  
When you are afraid of the dark  
All anybody needs is one light  
I'll be anything that you like  
Call me if you need it tonight  
When you are afraid of the dark

Oh oh oh  
La da da la da da la da da  
Oh oh oh  
La da da la da da la da da

I'll lift you up when you need won't let no one hold you down (no)  
I'll be the air that you breathe no I'll never let you drown  
(I can keep you warmer when your nights are getting colder  
Even when you feel like your entire world is over)  
Oh my you get me high  
And we'll never touch the ground  
Even if you're afraid of the dark  
Let's be dangerous surrender your heart

All anybody needs is one light  
I'll be anything that you like  
Call me if you need it tonight  
When you are afraid of the dark  
All anybody needs is one light  
I'll be anything that you like  
Call me if you need it tonight  
When you are afraid of the dark

Oh oh oh  
La da da la da da la da da  
Oh oh oh  
La da da la da da la da da

I know you're not scared of love  
But of not being loved back  
Not afraid of heights  
But scared of falling off  
Always on the run without ever tryna look back  
Sleeping with the lights on but you can turn them off  
I'll be your knight in shining armor  
Every night I'll fight the monsters  
When you're dreaming watching the sky for flying saucers  
Hold you close and rock you

Malcolm to the rescue

I'm your superman and batman if they ever try to get you

Baby if you're afraid of the dark

Let's be dangerous surrender your heart

All anybody needs is one light

I'll be anything that you like

Call me if you need it tonight

When you are afraid of the dark

All anybody needs is one light

I'll be anything that you like

Call me if you need it tonight

When you are afraid of the dark
