Blood Stained

Mnemic

Did you not make me take the blame for you
Did you not take me for a fool and then you made me cry
What did you achieve, blood hate I believe
Watch as I deceive you in hell

Did you not make me take the blame for you
Did you not take me for a fool and then you made me cry
What did you achieve, blood hate I believe
Watch as I deceive you in hell

So you lived your life on a level of indiscretion
Which I'll never seen
Your ignorance makes my silent anger
Just wake up and scream

It's bloodstained

So in all this hate, the suffering
It makes me go insane
Twistin' and turning to avoid the burning
That is this pain

Did you not make me take the blame for you
Did you not take me for a fool and then you made me cry
What did you achieve, blood hate I believe
Watch as I deceive you in hell

Did you not make me take the blame for you
Did you not take me for a fool and then you made me cry
What did you achieve, blood hate I believe
Watch as I deceive you in hell

So you would like me to go down
Face it I won't let you win this game
So you spit in my face
Still I get up and scream

Is that all that you got
I got more for you
Your past will catch up with you
So take your chance now

So you blame it all on the use and abuse
Of your sad power
But I'm sad to hear your arrogant excuses
As I break you in your finest hour

Did you not make me take the blame for you
Did you not take me for a fool and then you made me cry
What did you achieve, blood hate I believe
Watch as I deceive you in hell

Did you not make me take the blame for you
Did you not take me for a fool and then you made me cry
What did you achieve, blood hate I believe
Watch as I deceive you in hell

So I say did you not fuck it up
Did you pay when your greed just wouldn't stop
All that time did you ever think of me
But in time, I will make you understand
Ironically I will make you understand
You will violently learn to know my name

So I say did you not fuck it up
Did you pay when your greed just wouldn't stop
All that time did you ever think of me
But in time, I will make you understand
Ironically I will make you understand
You will violently learn to know my name
