

# Hero(in)

## Mnemonic

More than just a need  
It fills you up with dark secrets  
More than just a dream  
Plunging yourself in a fake world

In a fake world  
With fake words

More than just a fear  
Filling you up with angry tears  
More than just a need  
Dying again and living again everyday

On the edge we stand  
On the edge we stand  
Alone once again  
All my feelings  
Are fading away

This soul domination  
Is taking you away  
Physical domination  
But still you beg for more  
But still you beg for  
More than just a fear  
Filling you up with angry tears  
More than just a need  
Dying again and living again everyday

On the edge we stand  
On the edge we stand  
Alone once again  
All my feelings  
Are fading away

More than just a need  
More than just a dream  
More than just a fear  
More than just all

On the edge we stand  
On the edge we stand

On the edge we stand  
On the edge we stand  
Alone once again  
All my feelings  
Are fading away

Are just fading away
