

The Erasing

Mnemic

It's been a while
We've lost the human poetry
The future no longer shines
The cancer is growing

We're both
A piece of death
A piece of life

But can we cancel the erasing?
Replacing, we're faking
Falling off the chair again

I came here to warn you
This future no longer shines

We are hypocrisy
We are so wasteful
We are a fantasy, we are

But can we cancel the erasing?
Replacing, we're faking

Falling off the chair again
I'm falling off the chair again

We're both
A piece of death
A piece of life

We're both
Morality, insanity

Erasing [Incomprehensible]
Replacing, we're faking
Falling off the chair again
Replacing, we're faking

I'm falling off the chair again
