

## Way Of The World

### Mob Rules

You got the key to unknown land  
And tried to keep your helping hand  
We found the complete way to go  
Your spirit patched up broken wings  
Your patience healed out wounded skins  
You took your time to rescue life

Left things go right and black turns to white  
We lived as we borrowed the time  
Fire and ice and water was turned into wine

As a child born in green land turns the earth back to life  
Has to find out the way of the world

People come and people go  
Sun goes down behind black smoke  
Must have been a place to stay  
Your memory shows all they earned  
Some lessons that they had to learn  
Knowledge of the unknown man

Wrong things were right and black turns to white  
We lived as we borrowed the time  
Fire and ice and water was turned into wine

As a child born...

On judgement day we reach eternity  
It ever lasts to my memories  
Take my hand and trust your eyes  
Give your heart forget the lies

As a child born...

The miracle of life has come  
The answers of the past were done  
I realised the pain of Savage Land  
I saw that just the best survived  
Saw them save their naked life  
No one forget Insurgeria

Wrong things were right and black turns to white  
We lived as we borrowed the time  
Fire and ice and water was turned into wine

As a child born...
