

# Bounce

Mobb Deep

Yeah  
Another banger

You can feel me if you don't, you don't  
I'll feed you to the dogs like a bitch I boned  
My only concern is for the cash I gross  
A nigga more deadly up against the ropes  
Problem dead on tacking tours to throats  
Eyes, ears open you can try to get close  
Approach me then  
Get on the floor soldier like you owe me ten  
Spread it, never say it  
Actions speak louder than words  
Get bodied because you doubted the word  
Never fucked your bird, stop askin her  
It's not that serious, keep backin up  
She'll get curious, and delirious  
Send that bitch home on her period  
To stop Havoc got to kill me bro  
These niggaz listening but don't hear me bro

R: Yo, what's the deal, deal  
Play that shit I can feel, feel  
Right now it's about to get real, real  
Never leave home without that steel, steel  
(2x)

Yeah, just bounce  
Bounce, Bounce  
Let's go, let's do it, let's get it correct  
Let's ball, let's burn, let's all get bent  
Let's party and celebrate success  
Let's not ruin my fun, my gun will spit  
Nigga find you a woman you can definitely rip  
Ladies find you a man, go ahead get you some dick  
What you thought? you a big girl, I'm a big boy  
So let's not play these games, let's get to the point  
Bitch get off me, I switch plans on you  
There's plenty more bunnies for me  
These niggaz got problems? I'll straighten that promptly  
I'll be all over them niggaz so fast, they're so pussy  
Go ahead push me to tear you up  
Try me, blind me, force my guns  
You ain't built for war, you built to bounce  
So we gonna ride on you niggaz until the sun burn out

R: (2x)

Bounce, bounce, bounce, bounce
