First of all, we the one and only Infamous

Everybody wanna use the name Soundin' all lame

We come up in the party with them shanks and things

Have you curled up on the floor Feelin' the pain

And nine times out ten we ain't even start the shit We finish it
Then they wanna press charges

Plus everybody and their mother wanna act tough
'Till they discover how fast a nigga leave them under white covers

Was a thumper
Till he met the 40 thunder

Now I feel strange when I walk by his mother It's fucked up

That's how the ball bounce

The cookie crumbles

That's what the guns do Dead you
On the humble

But god fogive me niggas tryin to hit me What I'm supposed to do You talk about my life
And a nigga got a lot to loose

So I
Tuck the heaters
Then proceed to move
We a mob for real
You an example

R: You should spread love not war
Cause my shit is poppin
And I'd be god damned if you shot me
You need to spread love not war
Cause you wont feel safe
Comin out your crib, knowin that we got beef
You should spread love not war
Just think about your kids
How they need you alive for they're guidance
You need to spread love not war
Cause death hurts whole families
Imagine it's your moms that grieves

Two in the neck
Yes you will, if you not feelin me yet

Outta respect Can't stand it man, you niggas is set Sweatin hard ain't do shit But run your list When a nigga get confronted All he do is take the fifth Not the long, talk about the four Niggas is raw You ain't know, now you know Leakin down on the floor Never a need for my words Believe what you heard Never flash a gat and go bust it That shit is absurd Cause I be right back To my brother say word You got to drive, no doubt I cock it bein tougher for herbs Cause the Plot is power An I do it for hours Won't save me for a minute Till I move on you cowards Direct Drama to us Infamous be the ones and we rowdy Million dollar ballad Make an album, get classes
