Listen, my friends
Listen, my friends
Listen, my friends
Listen, my friends
Listen, my friends
Listen, my friends

Listen, my friends, you thought never but
Listen, my friends, I'm your's forever
Listen, my friends, won't leave you ever

Now my friends
What's gone down behind
No more rain
From where we came

Listen my love, get under the covers, yeah
Squeeze me real tight, all of your lovin'
Into the light, beneath and above ya
So out of sight, bein' in love!
