

Sitting By The Window

Moby Grape

I was sitting by the window
The reflection of your picture
Watchin' for the rain
Against my window pane

I'm playin' my game
And I guess you're playin' it too
But just the same

Go ahead and play it on through
The times we had together
Now it's cloudy every morning
It was sunny every day
And it stays that way all day
But just the same

I was sitting by the window
I'm playin' my game

And I guess you're playin' it too
Watchin' for the rain
Go ahead and play it on through
Just like before the rain
I thought you were beside me

But just the same
Go ahead and play it on through I'm playin' my game
And I guess you're playin' it too
