

Alice

Moby

My head keeps turnin' turnin'
Like Russian roulette
Thoughts are like bullets
I cannot do this...do this...do this... do this... [2x]

How do I feel like I'm
Alright probably going home
Gonna make it the same
Gonna make it my love's time... my love's time... [2x]

Cause this is the right world
This is the wrong world
This is the one world
This is the dark world
This is the sun world
This is the sun world
Can you become girl here in the fun world?

How do I feel like I'm
Alright probably going home
Gonna make it the same
Gonna make it my love's time...make it my love's time...

Psychosomatic
Imagine having shadows swooping inside us
And mirrors cracking
The shudders was a trappin

Having tea with alice
Rapid up on the mirror
I'm jealous chemically
Imbalance into my channel

Tracking through the heart of the devil
??
My thoughts are spinnin' from brellas ?? to higher levels

Severed from your lovin'
I'm troublin' to talk to no one
And no one told there's no one
Happening in the volcom

Where am I supposed ta
With padded rooms like a sofa
They told me it's for my own good
My voices on my shoulder
Plan it
Let the vultures divulgin'
To keep revolvin' the spot
Works on my focus
My culture, but no one knows it

This is why you focusin' mostly upon my my own shit.
I told you I'm not the culprit I'm the only one you notice
Walking across the ocean makes no super ??
im in a place that you noticed
im gonna win it to ma marbles

How do I feel like I'm
Alright probably going home
Gonna make it the same
Gonna make it my love's time... my love's time...

Cause this is the right world
This is the wrong world
This is the one world
This is the dark world
This is the sun world
This is the sun world
Can you become girl here in the fun world?

Mix it up with the alpha hits
Now this low key I'm smokin' trees
They give us ?? second trips
From nigel back to the Yuka Streets
I get ya loco everywhere we go
??
Easier Than None
Get down with focus
Hey there Susie
...I like the way you movin'

My head keeps turnin' turnin'
Like Russian roulette
Thoughts are like bullets
I cannot do this...do this...do this... [2x]

Whats in there you thinks so cool?
?? Truce
Lets suffer a little two on two
??
Maybe tried to rule
But noone gave it back to you
I seem to be ??
Find you much better too

How do I feel like?
Alright probably going home
Gonna make it the same
Gonna make it my love time... my love time... [2x]

Cause this is the right world
This is the wrong world
This is the one world
This is the dark world
This is the sun world
This is the sun world
Can you become girl here in the fun world?

(note; everything's fading by now...)

How do I feel like I'm
Alright probably going home
Gonna make it the same
Gonna make it my love's time... my love's time... [2x]

Cause this is the right world
This is the wrong world
This is the one world
This is the dark world

This is the sun world
