

# My Beautiful Blue Sky

Moby

Come on baby  
Come on girl  
Come on baby  
Come on girl

I love you baby  
I love you now  
I love you baby  
I love you now

Look at us, were beautiful  
All the people push and pull  
But let's just go out and ride  
Talk about the things we try

Look at us, were beautiful  
All the people push and pull but  
they'll never get inside  
We've got too much to hide

Come on baby  
Come on girl
