

# One Time We Lived

Moby

One time we lived  
Like the time would never leave  
What time we had  
The luxury to breathe  
I couldn't see an end  
There was no end in sight  
Time has risen up, time has pulled us down  
Bringing darkness to the light

I remember the way you looked  
The sun had set  
The lights were down  
I remember the light in your eyes  
Do you remember at all?  
Do you remember at all?

Isn't that what we wanted?  
Isn't that what we wanted?  
Isn't that what we had?  
Do we know what we need?  
Now that it's gone

Isn't that what we wanted?  
Isn't that what we wanted?  
Isn't that what we had?  
Do we know what we need?

One time we lived  
Like the time would never end  
And now it breaks  
Those left alone again  
And while the waters course  
By the old and pale light  
See just what I've lost  
And die into the night

I remember the way you looked  
The sun had set  
The lights were down  
I remember the light in your eyes  
Do you remember at all?  
Do you remember at all?

Isn't that what we wanted?  
Isn't that what we wanted?  
Isn't that what we had?  
Do we know what we need?  
Now that it's gone

Isn't that what we wanted?  
Isn't that what we wanted?  
Isn't that what we had?  
Do we know what we need?  
Now that it's gone
