

## Pale Horses

Moby

Put me on the train, send me back to my home  
Couldn't live without you when I tried to roam  
Put me by the window, let me see outside  
Looking at the places where all my family died

Leave me by the churchyard, leave me on my own  
Someone came and take me back to my home  
Put me by the window, let me see outside  
Looking at the places where all my family died

Put me on the train, send me back to my home  
Put me on the train, send me back to my home  
Put me on the train, send me back to my home  
Put me on the train, send me back to my home  
Put me on the train, send me back to my home
