

The Last Day

Moby

He was searching
Blindly behind the days
This life and my, no more
Breaking in the, just to stay awake
His heart was like a stone
Uuuh, his heart looked like a stone

And on the last
You walked out in the sun
You only just discovered the sun
On the last day
And on the last day
When this work is done
You only just discovered the sun
On the last day

All the structure
In scraps, the dark away
All this grey world
My final breath
It's on the dark and gray
Uuuh, it's on the dark and day

And on the last
You walked out in the sun
You only just discovered the sun
On the last day
And on the last day
When this work is done
You only just discovered the sun
On the last day
