

# Whispering Wind

Moby

Like the whispering wind  
You sent to me  
Like the hopeless time  
You gave to me  
I watched your dreams  
All slip away  
I watched your dreams  
All slip away

There's a hopeless place  
Inside my heart  
When I look inside  
I see where we are  
Like the whispering wind  
In the top of my trees  
I will watch the sky  
Come following me

Like the rain on my windows  
Late every night  
Like the hope I have for us  
Every time  
It's like the whispering wind  
In my top of the trees  
I see it sway  
As you come for me

There's a whispering wind  
I feel it inside  
Like a place I can feel  
But never will see  
Let a whisper come touch you  
Come touch everything  
I stand in the way  
Of the things I can be

Let the whispering wind  
Come lift us away  
Let it push us apart  
If we wish to stay  
You're my sweetness, my baby  
My love for all time

Like the whispering wind  
It makes you all mine  
Like the whispering wind  
You stand here with me  
Like the whispering wind  
You stand here with me  
I see your dreams  
All slip away

Slip away  
Slip away  
Slip away
