

## Picture The Sunrise

Mod Sun

Welcome to my life, picture the sunrise, oh that's what it feel like

It's makin' me realize everything's alright, oh that's what it feel like

Wake up and eat a Zig Zag for breakfast!

Chasing dreams, got me livin' sorta reckless

Nah I don't want somethin I'm obsessed with

So everyday I pick it up right where I left it

A million thoughts in my head to put on paper

Gunna make it like a curse, I swear

Add my flavor, be out like later, see what sits behind the next door like the neighbor

I'm a travelin man, the only way I know is go! tell em catch me if you can

Been blowin in the wind ever since i heard Dylan, now its like take a look at someone really livin

Really givin a shit about what they say, fully enjoying every second of everyday life

Findin out right now, the times right, feels good huh? welcome to my life

Welcome to my life, picture the sunrise, oh that's what it feel like

It's makin me realize everything's alright, oh that's what it feel like

Feels like the whole world about to be watchin, labels about to be biddin like a damn auction

Gettin compliments for my accomplishments and praise for my positivity and confidence!

(Gasp) Goddamn I love how that sound, so I'm original, the only way I know how

Never on the ground, I get NASA high, some think I'm cool, some think I'm out of my mind

Let it sink in, this the good part where we start peakin, eyes low, barely even blinkin, we below, we divin' straight into the deep end.

I cant believe that you see it, swimmin through a haze I don't plan on ever leavin

It felt too nice and it felt too right, so I stayed there, welcome to my life!

Welcome to my life, picture the sunrise, oh that's what it feel like

It's makin me realize everything's alright, oh that's what it f

eel like

It's gunna be a good day, hey!
