

## Thought You Should Know

Mod Sun

What up  
I'll be honest this second take  
That's cocky that's cocky

Greetings what up if its your first time  
I'm hippy hop positive like a plus sign  
I love what I got  
I'm so sublime  
I tell them be positive like the bloodline  
High up like a swisher in the hills  
I'm a fan of myself  
When I rap I get chills for real  
Out of ten I'm number one plus nine  
Giving goosebumps like R.L Stine  
And you can catch us on the beach  
Crack a brew puffing bud then we grab a bite to eat  
I smile extra big for the girls that didn't see me  
They said I was a square well what shape is your t.v

This is what you get when  
You got dreams and will do anything to get them  
I'm living good I just thought you should know  
And welcome to my element  
Were everyday we celebrate  
Just for the hell of it  
I'm living good I just thought you should

And I hit the ground running  
But to no one in particular I'm open to the public  
Wanna hit so I see my peers in the rear view  
And they just stay close to home like the infield  
But I was born out in left field  
Yes me against the fence solo kind of attitude  
No braces and they still say I smile great  
Plus I got a contact for a sack in every state  
You know me steve up in san fran  
I never had weed that purple up in my hand man  
We on vacation all the time  
Enough fun for a lifetime in summer 09  
Like vegas we done that cali we done that  
Even hit N.Y for diesel and then we come back  
Swear we did some other shit I can't remember  
But whatever we got cannabis cup in november

This is what you get when  
You got dreams and will do anything to get them  
I'm living good I just thought you should know  
And welcome to my element  
Were everyday we celebrate  
Just for the hell of it  
I'm living good I just thought you should

Save me a piece I'm coming  
Save me a seat I'm coming  
And they are so upcoming  
I plan to make something  
I'm so up and coming

No pause see we hit continue  
Press start next level no issue  
And I kinda just dissed you  
You think its easy talking to me then its you  
And older women seem to love me  
The younger ones just want to fuck then hug me  
They all want to stick around  
Gotta kick them out when I'm in the zone no doubt don't bug me  
Is that really how you feel yes  
Is music and weed really all you need yes  
I got haze look how fresh man now watch me get add's attention

This is what you get when  
You got dreams and will do anything to get them  
I'm living good I just thought you should know  
And welcome to my element  
Were everyday we celebrate  
Just for the hell of it  
I'm living good I just thought you should

Thats so sick dude  
You got to be freaking  
Let me do the hooks now
