

# Time To Celebrate

Mod Sun

Well uh, you would think there's no such thing as a clock  
After about ten minutes on my block  
Fill up a cup, let the music rock  
Chill out, relax? Hell nah  
Only plan is that we ain't got any  
Want an explanation on why we act so friendly  
I just tell 'em when I have fun, you see I could worry but I don't got one  
And how could ya blame me?  
Something about your wisdom drives me crazy  
Take it easy, eat some food. We got several kinds  
It's my jam, we be cookin like era

Now here's the easy part my friend  
Just like to stick our hands up in the air, the air  
Say here's the easy part my friend  
Just like to stick our hands up, put your hands up

It's time to celebrate, time to celebrate  
Don't pass up, glass up, people put your ass up  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

It's time to celebrate, time to time to celebrate  
Oh we gon' be there, you ain't even gotta ask us  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

Straight from LA comes a spacey  
Uh, until liquor store Jakey get wasted, wasted, wasted  
'Bout to cause a party, we invitin' everybody  
Oh yeah we got every kind of alcohol  
And every time we party party I like to throw them all  
Loose control with wine and martinis  
Brand new attire with girls in bikinis  
Now let the celebration begin  
Everyday we do a puzzle and we do it on the weekends  
Pub it and drink it until we stop blinkin'  
Stay up late cause tomarr' we gon' sleep in

Now here's the easy part my friend  
Just like to stick our hands up in the air, the air  
Say here's the easy part my friend  
Just like to stick our hands up, put your hands up

It's time to celebrate, time to celebrate  
Don't pass up, glass up, people put your ass up  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

It's time to celebrate, time to time to celebrate  
Oh we gon' be there, you ain't even gotta ask us  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

It's time to celebrate, time to celebrate  
Don't pass up, glass up, people put your ass up  
Ain't nobody celebratin' like we do

Ain't nobody celebratin' like we do

It's time to celebrate, time to time to celebrate  
Oh we gon' be there, you ain't even gotta ask us  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

We gon' get our drink on till we stop think on  
Need someone to lean on, someone to keep my jeans on  
Take a shot, get my green on  
End of the night, get my Charlie Sheen on  
This is how it is, no rehearsal  
We livin' like that corona commercial  
Again, that's the easy part my friend  
Just like to stick up our hand, put your hands up

It's time to celebrate, time to celebrate  
Don't pass up, glass up, people put your ass up  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

It's time to celebrate, time to time to celebrate  
Oh we gon' be there, you ain't even gotta ask us  
Ain't nobody celebratin' like we do  
Ain't nobody celebratin' like we do

It's time to celebrate, time to celebrate  
(Hold up)  
It's time to celebrate, time to time to celebrate  
(Pass it up)  
It's time to celebrate, time to celebrate  
(Havin' good times over here)  
It's time to celebrate, time to time to celebrate  
(Ain't goin' nowhere)  
It's time to celebrate, time to celebrate  
(Yeah)  
It's time to celebrate, time to time to celebrate  
(Mod sun)  
It's time to celebrate  
What up Mikey
