

# You Are

Mod Sun

You are the only one that gets inside my head  
You are the only one that I want inside my bed

And when my phone ring, you the only one that I answer for  
I know you got your own thing  
But I'll give you anything that you askin' for  
'Cause I can be a better man  
Tell you all about my past if you promise not to judge  
And come up with a better plan  
Start thinkin' 'bout my future and put down some of these drugs  
Dreamin' 'bout you all night lately damn near drove me crazy  
Maybe you the one to save me, maybe have my baby

And quit trippin', I ain't lookin' at these other women  
I know she got different ones, I got up on the television  
And now I'm gettin' famous, you know how we livin'  
I'm surrounded by these people sinnin'  
You know that's a given  
And people talk, but we don't listen  
You ain't got no competition  
It don't matter where I sing, you the one thing I be missin'

You are the only one that gets inside my head  
You are the only one that I want inside my bed  
Alright, alright, okay, okay  
Okay, I want you, okay, I want you bad  
Alright, alright, okay, okay  
Okay, I want you, okay, I want you bad  
Okay, I want...

And when my phone ring when we together  
Shit, I ain't pickin' up for nothing  
Yeah, we do our own thing  
In the day, we makin' love, and then at night, we just be fuckin'  
Kinda like Sid and Nancy, but you way more fancy  
Alright, alright, okay, okay  
Okay, I want you

And quit trippin', I ain't lookin' at these other women  
I know she got different ones, I got up on the television  
And now I'm gettin' famous, you know how we livin'  
I'm surrounded by these people sinnin'  
You know that's a given  
And people talk, but we don't listen  
You ain't got no competition  
It don't matter where I sing, you the one thing I be missin'

You are the only one that gets inside my head  
You are the only one that I want inside my bed  
Alright, alright, okay, okay  
Okay, I want you, okay, I want you bad  
Alright, alright, okay, okay  
Okay, I want you, okay, I want you bad  
Okay, I want...

Alright, I can still remember how the weed smell  
So I'm not wearin' a seatbelt

If we crash, you crash  
Let's fuck right now, if it lasts, it lasts  
Take a little puff, pass it, I'm a little bombastic  
I always keep it real, and I ain't got a will  
But if I die, I want a candy pink casket, that's it  
Peep the way I slide in  
Got bitches doin' what I say, Simon  
Like, "Climb in, suck this, don't touch these diamonds"  
I'd rather be drivin' than arrivin'  
And I'd rather be livin' than survivin'  
I'm in over my head, your silhouette  
Fucked her three times, but she won't give me head  
Ay, all it takes is time  
And I tell her anything just to change her mind, like

You are the only one that gets inside my head  
You are the only one that I want inside my bed  
Alright, alright, okay, okay  
Okay, I want you, okay, I want you bad  
Alright, alright, okay, okay  
Okay, I want you, okay, I want you bad  
Okay, I want...
