

# A Creature Among Us

## Modern Day Escape

The beast is trudging  
Through the darkness  
The pictures flashing now  
Brighter than a camera lens  
Could ever capture  
All the sadness  
That's lying deep within

My hearts design is shattering  
This is my last goodbye  
This hate is pouring out from my eyes

Stick your straw into my chest  
Suck until there's nothing left  
Because I feel so dry  
The word family  
Sounds more like enemies  
I'll take you all to the grave

It's time to face the monster that you have made  
My lungs are filled with black and their hate

I see the shadows  
Casting under my door  
It's getting darker  
The lights the only cure  
My flashlights fading out  
These are the ghosts that haunt  
The darkness inside my chest is growing  
And it will never be stopped  
Before they blacken out both of my eyes

Stick your straw into my chest  
Suck until there's nothing left  
Because I feel so dry  
The word family  
Sounds more like enemies  
I'll take you all to the grave

It's time to face the monster that you have made  
My lungs are filled with black and their hate

I may be hopeless  
I know I'm reckless  
I may be hopeless  
I know I'm reckless  
I may just be everything  
That you never wanted, wanted, wanted, wanted!

Wanted! OH!

Give me the respect  
That I'm fighting for  
Give me the respect  
That I'm dying for  
That I'm dying for  
That I'm dying for
