

Demons Down Below

Modern Day Escape

You left me
Down in the rabbit
Hole alone
Searching in the darkness
To find
The evil in my soul
And stand against
The demons
Facing me
I walk
Between the lines
Of revenge
Revenge and misery

I'm calling out
Is anyone there
I need help
But no one cares

Let the darkness
Consume me
Whole again
Engulfed in hate and flames
Turn my heart from
Flesh to stone
Mercy is just empty words
And promises
The word best of friends
Is best buried
Buried with the past

I'm calling out
Is anyone there
I need help
But no one cares
About anyone
But themselves
It makes me sick
I'll end them all

I'm calling out
Is anyone there
I need help
But no one cares
About anyone
But themselves
It makes me sick
I'll end them all

Good bye
Good bye
Good bye
I'll end them all

And now it's time
To say good bye
Too all our friends

This is the end
So say good bye
To all your dead
