

# For The Horde

## Modern Day Escape

We are the Warriors!  
Lets storm their castle  
Lets burn this place to the ground  
I've got the torches  
If you want to take the crown

We'll torch the kingdom  
And take their gold  
Watch your shadows  
If you're not careful  
We'll put your head on a pole

And we are, we are for the Horde  
We'll ride into the sun  
And I will wait here in the dark  
To try and kill them  
Try and kill them all!

Ride your steed  
To the dread of the masses  
Use your weapon wipe those smiles from  
All those faces  
Wipe that smile from all their faces  
Their faces

Take your battle axe  
Put it between his lungs and heart  
Wear his bones as a shield  
We are all animals  
Animals!  
Animals!

And we are, we are for the Horde  
We'll ride into the sun  
And I will wait here in the dark  
To try and kill them  
Try and kill them all!

We are for the Horde

And we are, we are for the Horde  
We'll ride into the sun  
And I will wait here in the dark  
To try and kill them...  
And we are, we are for the Horde  
We'll try and kill them  
Try and kill them all!
