

So fire at will  
Give me one last chance to make it through

It's sink or swim, we're at the end  
I can see for miles over the ocean  
The castle walls are burning down  
We've got to find our way out

So shed some blood and sink some ships  
Take all their gold, let us fight with them  
We'll walk the plank, it seems like miles  
Hear the cannons blow

So fire at will  
It's sink or swim, we're at the end  
I can see for miles over the ocean  
The castle walls are burning down  
We've got to find our way out

We've got to find our way, We've got to find our way

It's sink or swim, we're at the end  
I can see for miles over the ocean  
The castle walls are burning down  
We've got to find our way out

It's sink or swim, we're at the end  
The captain's going to sink the ship
