

The Syndicate

Modern Day Escape

VERSE 1

It's time again
To she'd our skin
And show you just who we've become
What a journey this has been
I can't believe we've come this far

PRE-CHORUS

The nights we spent
Fighting for all
Of our dreams between the
Battles and the wars
Don't LET EM TAKE YOU ALIVE

CHORUS

My stomachs turning into nots
(WHO CARES)
If we sleep again or not
We're broken
Don't let em take you down
There's are storm that's rolling in
(WHO CARES)
So throw your fists up high
United
We are the syndicate
