

Way Out

Modern Day Zero

Simply stated
Could we be around
On our way out
Now we're on our way to behold
The space that we were before
Can we reach out to you
On our way out

But somebody's trying
To lead you somewhere out there
Beyond all the silence
I believe you're somewhere out there
Well I just wonder where you are

After life is said and done
We must find our way to move on
And we hope that there's a light
On our way out

Everything I believe is gone
I hate to think that I've been wrong
Can this light pull me along
