

Beautiful People

Modern English

If you know how I'm feeling
You'll hear just what I say
About the world outside your window
Let's take it all the way

Beautiful people, flowers in your hair
Far too caring for the world out there
I love your voice, beautiful people
Love, love, love, beautiful people

It came to me this morning
On a wing and a prayer
These words are for the people
There's so much we can share

Beautiful people, flowers in your hair
Far too caring for the world out there
I love your voice, beautiful people
Love, love, love, beautiful people

Love, love, love
Love, love, love

I want to know
Will these thoughts ever go?
For the rest of my life
Will I feel these words are right?

When you use your voice
Everyone can hear it

Beautiful people, flowers in your hair
Far too caring for the world out there
I love your voice, beautiful people
Love, love, love, beautiful people

Beautiful people, flowers in your hair
Far too caring for the world out there
I love your voice, beautiful people
Love, love, love, beautiful people

Beautiful people, yeah
Beautiful people

All we need is love, love, love
(I want to know)
All we need is love, love, love
(Will these thoughts ever go?)
All we need is love, love, love
(For the rest of my life)
All we need is love, love, love
(Will I feel these words are right?)

All we need is love, love, love
(I want to know)
All we need is love, love, love
(Will these thoughts ever go?)

All we need is love, love, love
(For the rest of my life)
