

# Spinning Me Round

Modern English

When someone close is always on your mind  
A memory of a place, another day and time  
Some would say you died and left your heart behind  
But it's with your heart you're searching all the time

I want you with me  
I need you near me  
I want so much from you anew

The dreams we had were rather common line  
And in their wake there came the fear you'd changed your mind

Spinning me Spinning me round Spinning me  
Spinning me, Spinning me, Spinning me round

I want you with me  
I need you near me  
I want so much from you anew

And if you lose your mind  
Never leave your heart behind  
To find yourself is worth the waiting  
Finding, then really living

Spinning me Spinning me round Spinning me  
Spinning me, Spinning me, Spinning me round

I want you with me  
I need you near me  
I want so much from you anew
