

## Just Close Your Eyes

Modern Talking

Did I ever ever told you  
That I miss you every night  
And I cannot find my sleep girl  
If I cannot hold you tight  
Did I tell you when you left me  
There's no sun up in the sky  
And I cried so many times girl  
Just like a broken toy  
Oh I cannot stand the pain girl  
It was over, I can see  
And now you told me lady, there's a chance for you and me

Just close your eyes-and stay with me  
There is a place-where I wanna be with you  
Just close your eyes-take me in your heart  
I will love you pretty baby, if you try a start

Did I ever ever told you  
That I dreamt of you last night  
Is there anything I can do  
cause I wanna hold you tight  
Did I tell you I was dying  
Oh you turned away from me  
Took away my sweet sweet heaven  
And I lost my destiny  
Oh I cannot stand the pain girl  
It was over, I can see  
And now you told me baby, there's a second chance for me
