

Love Is Like a Rainbow

Modern Talking

When I look into your eyes
I can see a part of heaven
Never felt the way like this before
In my life

Love shines in many colours
Love is shining for us
Believe me
That my love is real

Love is like a rainbow
Love will lift you up and let you down
The light behind the shadow
Will tell you
That I'll never go

If you see a rainbow in the sky
I will promise you that you'll never cry again
Those tears from heaven

Every hour every minute
I will touch you I will feel it
Always looking for someone like you, all my life

I cover you with sunlight
I take your hand and hold tight
If raindrops
Will darken the sky

Love is like a rainbow
Love will lift you up and let you down
The light behind the shadow
Will tell you
That I'll never go
We know that rainbows come and go
But our love won't slip away
