

Princess of the Night

Modern Talking

Oh I'm waitin' in the darkness
Hesitatin' in the darkness
Follow on your shadows in the night
I'm feelin' it's burnin'
The point of no return babe
Easy for two
Baby it's so hard for one

Princess of the night (of the night)
I'm drownin' in the light (in the light)
Princess of my dream (of my dream)
Cross-fire of feeling

Princess of night what have you done
Baby I know our day will come
Princes of night princess of day
When the night will fade away

Gotta date babe with an angel
With a hot child of the city
Follow all your shadows in the night
Oh somewhere there is someone
And two hearts beatin' as one
Easy for two
It's so hard for one
