Princess of the Night

Modern Talking

Oh I'm waitin' in the darkness Hesitatin' in the darkness Follow on your shadows in the night I'm feelin' it's burnin' The point of no return babe Easy for two Baby it's so hard for one

Princess of the night (of the night) I'm drownin' in the light (in the light) Princess of my dream (of my dream) Cross-fire of feeling

Princess of night what have you done Baby I know our day will come Princes of night princess of day When the night will fade away

Gotta date babe with an angel With a hot child of the city Follow all your shadows in the night Oh somewhere there is someone And two hearts beatin' as one Easy for two It's so hard for one
