

Ready for the Victory

Modern Talking

You're in our hearts
Just from round to round
You will be the champion
The king without a crown
Like a fireball
You'll never never give up
Hear the engine call
Waiting for the start

Can't you see
We're ready for the victory
It's clear -
You're the hero just for you and me
I feel -
We're in the pole-position-team
Can't you see it's like a dream?

From Australia to USA
And From Italy to Germany
And From San Marino to Canada
He is our biggest star

Oh you cannot loose
If you have a lucky hand
You will be the hero
You have many friends
Dreams we cannot buy
You will win again
Nobody does it better
Through passion and through pain
