

Why does it feel so good

Modern Talking

You take me up, and than you take me down
I hear my heart, it's such a lonely sound
And I know my love is serious
Can I trust your heart, you're dangerous
The grass is greener, girl when I see you
The sky is bluer, girl it's true
But I know this love is serious
Can I trust your heart, you're dangerous
Cause I, I wanna kiss your lips tonight

Why does it feels so good
To be with you tonight
Cause no matter what I do, I do ist just for you, my love
Why does it feels so good
If you are by my side
Cause no matter what I do it's only me an you
Cause it's: One to make me crazy
Two to be my baby
Three you'll never let me go
Oh it's: Four you play with fire
Five higher and higher
Six and baby time will show

Why does my heart, is beating just for you
You promised on a secret rendezvous
And I know this love is serious
Can I trust your heart, you're dangerous
Maybe I'm weak, and you are strong
But babe I know where my heart belongs
