## Why does it feel so good

**Modern Talking** 

You take me up, and than you take me down I hear my heart, it's such a lonely sound And I know my love is serious Can I trust your heart, you're dangerous The grass is greener, girl when I see you The sky is bluer, girl it's true But I know this love is serious Can I trust your heart, you're dangerous Cause I, I wanna kiss your lips tonight

Why does it feels so good To be with you tonight Cause no matter what I do, I do ist just for you, my love Why does it feels so good If you are by my side Cause no matter what I do it's only me an you Cause it's: One to make me crazy Two to be my baby Three you'll never let me go Oh it's:Four you play with fire Five higher and higher Six and baby time will show

Why does my heart, is beating just for you You promised on a secret rendevouz And I know this love is serious Can I trust your heart, you're dangerous Maybe I'm weak, and you are strong But babe I know where my heart belongs
