

# We've Got Everything

Modest Mouse

We've got everything  
We've got everything  
We've got everything down to a science  
So I guess we know everything

We know everything  
We know everything  
We know everything was built to expire  
So I guess we've done everything

If we carried it out to sea  
Pushed it over the edge we'd have all been through  
Well, first off Gary got drunk  
Fell asleep in his car till about noon

Oh, flat top Tony got all messed up  
Split his lip chasing cheap perfume  
Well, look at our boat in the bay  
It looks like some sad ass little canoe

We've done everything  
We've done everything  
We've done everything like trial by fire  
So I guess we'll stop trying now

We've tried everything  
We've tried everything  
We've tried everything half assed  
And as liars and that's how we've got everything

If we carried it out to sea pushed it over the edge  
We could have all been through  
Well, no one even bothered showin' up  
But we still did what we should have thought through

We crashed in like waves into the stars  
Didn't want it, didn't need it  
But we knew that we could see it  
So we opened up the door

We receded like waves out of the stars  
Didn't want it, didn't need it  
But we knew that we could steal it  
Left it dying on the floor

We've got everything  
We've got everything  
We've got everything  
Down to a science so I guess we know everything

We've got everything  
We've done everything  
We've tried everything  
We've got everything  
We've got everything
