

# Feel Good

Modestep

Cause the music makes me feel good  
When I see that look on your face  
Cause the music makes me feel like you  
When I see that look on your face  
Cause the music makes me feel good  
When I see that look on your face  
Cause the music makes me feel like you  
When I see that look on your face

[fades out]  
Your face  
Your face

Cause the music makes me feel good  
When I see that look on your face

Cause the music makes me feel like you  
When I see that look on your face

Your face  
Your face

Cause the music makes me feel good  
When I see that look on your face

Cause the music makes me feel like you  
When I see that look on your face

[fades out]  
Your face  
Your face

We can bring it back  
Bring real music back

We can bring it back  
Bring real music back  
It might not be everyone's taste

We can bring it back  
Bring real music back  
down to waste

We can bring it back  
Bring real music back  
It's gonna put on your face

[fades out]  
Your face  
Your face

Now let me hear the bass

[overlapping]  
Yah  
Yah

Cause the music makes me feel good  
When I see that look on your face  
Cause the music makes me feel like you  
When I see that look on your face  
Cause the music makes me feel good  
When I see that look on your face  
Cause the music makes me feel like you  
When I see that look on your face

[fades out]

Your face  
Your face

[overlapping]

Yah  
Yah

..

Cause the music makes me feel good  
When I see that look on your face  
Cause the music makes me feel like you  
When I see that look on your face

Cause the music makes me feel good  
When I see that look on your face  
Cause the music makes me feel like you  
When I see that look on your face
