Chillin'

One night in a disco Chillin' with my friends Feelin' kinda low I was sitting on a fence Suddenly I saw her Dancing on the scene Just like in a dream She would set my heart on fire I feel, so high Dancing, all night You blow, my mind 'Cos you're, so fine She had such a swing Anyone could see Her body meaning things That look so good to me Music got my head Spinning all around She got me in a trance Just by the way she danced I feel so high Dancing all night You blow my mind 'Cos you're so fine I feel so high Dancing all night You blow my mind 'Cos you're so fine (She had such a swing) I feel so high (Anyone could see) Dancing all night (Her body meaning things) You blow my mind (That look so good to me) 'Cos you're so fine (Music got my head) I feel so high (Spinning all around) Dancing all night (She got me in a trance) You blow my mind (Just by the way she danced) 'Cos you're so fine (Music got my head)

(Music got my head) I feel so high (Spinning all around) Dancing all night

'Cos you're so fine
