## Modwheelmood

I drew all my conclusions  
I've crossed the bridge that no one dares to cross  
Got rid of all illusions once again

Everyone is welcome to the circus  
Where no one knows what's really going on  
Take a ride, enjoy and focus, focus, focus.

It's not beautiful  
Quite unpredictable  
I'm changing  
I'm changing  
It's impossible  
I need a miracle  
I'm changing  
You're changing now.

Every time a new decision  
Little things that keep me from moving on  
In the time of indecision make me stronger, stronger

It's not beautiful  
Quite unpredictable  
I'm changing  
I'm changing  
It's impossible  
I need a miracle  
I'm changing  
You're changing now
