If I Was You

Modwheelmood

```
and you wanna know
where to find the space in time that
you been looking for
for so long

where you wanna go
where to find the space in time that
I been looking for
for so long

even though
I lost my mind the change in time
I long for what I've [got to grow old](?)

If I was you
maybe
I would get through
Nights and
Wait until
Daybreak
Sorting(?) all my promises

You rearrange
all there is
everything
don't admit
anything

Everyone I know
Knows where to find the space in time that
You been looking for
For so long
Unbelievable
I Wish I might have
Wish I could have
I wish I wouldn't smoke
anymore

Even though
I lost my mind the change in time
I long for what I [got to grow old](?)

If I was you
maybe
I would get through
nights and
wait until
daybreaks
holding(?) all my promises
you rearrange
all there is
everything
don't admit
anything

Say goodbye to everything
Say goodbye to everything
```

```
If I was you
Maybe
I would get through
Nights and
Wait until
Daybreaks
Sorting(?) all my promises
You rearrange all there is
Everything
Don't admit
Anything
Say goodbye to everything

Say goodbye to everything
Say goodbye to everything
Say goodbye to everything
Say goodbye
```
