

Trapped In Me

Modwheelmood

We've been through this
I need a kiss
Used to be a gift from outer space
And once again
I'll be the rain
Even though I hate to be this wet
Regrets

Suddenly you realize today
Tomorrow is just another day
Away you run
You trapped in me.

And once again
I feel depressed
Something more that I
I need to grasp
It's what it is
No time for this
If I go will you be near at all?
At all?

Suddenly you realize today
Tomorrow is just another day
Away you run
You trapped in me.
