

# All The Beer And All My Friends Are Gone

Moe Bandy

(Well all the beer and all my friends are gone)

It sure was fun having all the gang around tonight  
Laughin' and singin' and talkin' about old times  
We raised our glasses high and drank and ended up half tight  
And at once did you even cross my mind

Now all the beer and all my friends are gone  
And I'm laying in the darkness tryin' to go to sleep alone  
Wonderin' why the radio plays the saddest songs  
When all the beer and all my friends are gone

It's not too hard to tell my friends that I don't love you anymore  
I lie and say I've found somebody else  
I drink a beer and say that I don't miss you like before  
But now I wonder what to tell myself

Now all the beer and all my friends are gone  
When all the beer and all my friends are gone
