

# I Just Started Hatin' Cheatin' Songs Today

Moe Bandy

Today the midnight oil's all over someone  
And those forbidden places aren't forbidden anymore  
If my back door could talk it would tell me  
That my borrowed Angel's been this far before  
I just threw my last bottle at the jukebox  
When I heard that woman sing let's go all the way  
I just found out my woman is the devil  
I just started hatin' cheatin' songs today  
Did she sleep in your arms last night mister  
Were you the one who gladly helped her make it through the night  
Did she whisper it's not love but it's not bad  
Did she forget to wake you up to say goodbye  
I just threw my last bottle at the jukebox

When I heard that woman sing let's go all the way  
I just found out my woman is the devil  
I just started hatin' cheatin' songs today
