

I Never Miss A Day (missing You)

Moe Bandy

I never take a drink or go out dancin'
When you live alone that's hard to do
I might miss a chance to find a new love
But I never miss a day missing you.

Last night I thought that I had lost your mem'ry
But it turned up this morning good as new
I wake up to find you'd been walking through my mind
And I never miss a day missing you.

I never miss a day missing you
That's one thing that I know I'll never do
Each day my world's a deeper shade of blue
And I never miss a day missing you.

I never miss a day missing you
That's one thing that I know I'll never do
Each day my world's a deeper shade of blue
And I never miss a day missing you.

Never miss a day missing you...
